Tiktok is the most installed app this year so far, beating the social media giant Facebook! That's the level of this app and this trend is getting better and better everyday. The latest feature that they have added on their app is the usage of coins. Users can purchase these coins by using real cash. There is a secondary way to get these coins and I'll tell you that a bit later. Now, let me explain you how to buy coins using your real cash.

Verify that you are a real person and not a spam bot. You may need to fill some captcha such as typing the characters in the small image, summing up two numbers, choosing the correct ones from images, installing free apps etc.

Well, Tiktok coins are nothing but virtual money that you can spend to buy other virtual items such as diamonds and other resources on Tiktok. It's similar like we buy gems on various games like Clash of Clans. You'll spend your real money (there are free methods also) to buy coins using your Google Play account and then you can spend those coins to buy Tiktok resources. You can then gift those resources to other users on Tiktok as a form of appreciation or love.
